"Long-term" refers to Dimensional flagship equity mutual funds with at least 15 years of performance. All funds are US domiciled. The current value of a hypothetical \$100,000 investment is reported net of all advisory fees and expenses and includes reinvestment of dividends and other earnings. The initial investment may be higher or lower than the initial amount required to invest in each fund. The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index. **Past performance is not a guarantee or prediction of future results. Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain performance data current to the most recent month-end, visit us.dimensional.com.**

1. Expense ratio as of 2/28/19. Certain portfolios have entered into fee waiver and/or expense assumption arrangements with the advisor. In these cases, the advisor has contractually agreed, under certain circumstances, to waive certain fees and/or assume certain expenses of the portfolio. Unless otherwise stated in the prospectus, the advisor may amend or discontinue these arrangements at any time, one year from the date of the prospectus. The net expense ratio reflects the total annual fund operating expenses of the portfolio after taking into account any such fee waiver and/or expense assumption arrangements. Please read the portfolio's prospectus for details and more information.

Indices are not available for direct investment; therefore, their performance does not reflect the expenses associated with the management of an actual portfolio. There is no guarantee that any strategy will be successful or that any investment objective will be met.

Mutual fund investment risks include loss of principal and fluctuating value. Small cap securities are subject to greater volatility than those in other asset categories. Value investing is subject to risk that may cause underperformance compared to other equity investment strategies. International investing involves special risks, such as currency fluctuation and political instability. Investing in emerging markets may accentuate these risks. Real estate investing risks include changes in real estate values and property taxes, interest rates, cash flow of underlying real estate assets, supply and demand, and the management skill and creditworthiness of the issuer. Risks specific to each fund are described in the Principal Risks section of the prospectus.

Dimensional Fund Advisors LP is an investment advisor registered with the Securities and Exchange Commission. **Consider the investment objectives, risks, and charges and expenses of the Dimensional funds carefully before investing. For this and other information about the Dimensional funds, please read the prospectus carefully before investing. Prospectuses are available by calling Dimensional Fund Advisors collect at (512) 306-7400 or at us.dimensions.com. Dimensional funds are distributed by DFA Securities LLC.** Dimensional funds are available through financial advisors and to institutional investors only. The performance presented in this material does not reflect fees charged by a financial advisor.
